medical solutions

State of the art
healthcare solutions,
when patient care
and comfort is critical.

SpaceAge Communications can provide healthcare professionals the tools and training facilities needed to improve their skills and enhance the quality of patient care.

- State of the art simulation centres
- Tele-medicine collaboration over extreme bandwidths
- Connectivity to multiple sites across Australia or worldwide
- Training, education and research purposes

SpaceAge Communications provides custom audio visual solutions for the medical and healthcare industries by utilizing the latest technology and delivering practical solutions that perform. We can provide this specialized equipment to our clients at extremely competitive prices due to our alignment with the major suppliers of medical audio visual products.

Whether the prescription calls for a state of the art research and training laboratory or a multimedia operating suite, we have the medical expertise to meet your needs. SpaceAge Communications can show you how an integrated audio visual environment can help you have a more productive and cost effective healthcare, medical or surgical facility.

Our advanced multi-media systems provide for a sterile, streamlined surgical environment that allows for complete control of all systems with the touch of a button.
